

Smart Limits

Smart Limits for Wireless Parental/Supervisor Controls

Enjoy the freedom and security of a wireless phone for your child or employee while setting sensible boundaries for its use.

Set Limits for:

- Time of day their phone can and cannot be used
- Number of text and instant messages per billing cycle
- Dollar amount for download purchases (ringtones, games, etc.)
- Block/allow specific numbers that can be called or texted (incoming and outgoing)
- Restrict content inappropriate for children

As the user approaches the set text and download limits, they will receive a warning message. Once a limit is reached, a notification will explain that the service will be blocked until the next billing cycle begins. Calls and text messages to and from numbers designated as "Allowed Numbers" will be permitted regardless of limits set.

How Does it Work?

- An easy online setup lets you determine limits, thresholds and restrictions
- Text and Downloads will be restricted per billing cycle

What does it cost?

\$4.99

Lifestyle:

- ▶ Work Play ▶ Family

Operating System Requirements:

Windows Blackberry Symbian

How do I get it on my phone?

- Available when you activate or upgrade service or simply contact your Spring representative to have this added to your account
- Go online to set the desired thresholds, limits and restrictions
